

Wavelength Selection Solutions

optical components | sub-assemblies | coatings

About

Optometrics is an ISO 9001:2015 and ITAR certified supplier of optical components and sub-assemblies dedicated to wavelength selection and light management solutions for defense, security, research, academia and OEM customers globally. Through its principal processes of mechanical ruling, holographic recording, photolithography, optical thin film coatings, and opto-mechanical assembly, the company maintains an excellent reputation for supplying spectrally precise equipment.

With a catalog of more than 400 master gratings available for immediate optical replication and a deeper archive thousands strong, a commitment to continual improvement, and capacity to produce and assemble more than 500,000 precision replicated optics annually, Optometrics has emerged as the go-to partner for custom and OEM applications.

ISO 6 (Class 1000) Opto-mechanical Assembly Space

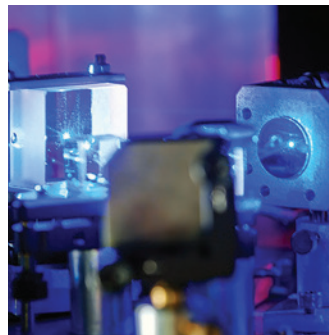

- Increase cash flow ROI
- Streamline dock-to-floor logistics
- Simplify materials management
- Reduce internal effort
- Plug and play solution

DIFFRACTION GRATINGS

OPTICAL FILTERS

BEAMSPLITTERS

WIRE GRID POLARIZERS
